Our Logo

Our primary logo serves as the cornerstone of our brand identity. It should be prominently displayed whenever space permits, ensuring maximum visibility and recognition.

As the signature element of our brand, the primary logo reinforces our overall aesthetic and communicates our core values to our audience.

All the other logo variations are built from our primary logo. The monogram and favicon are all take elements from the primary logo.

Clear Space

To ensure optimal legibility and visual clarity, we have established minimum negative space requirements around our logos.

Using the width of the arrow as our baseline unit (X), we recommend maintaining an X-unit buffer around the wordmark and logo mark.

For the favicon, half the X-unit buffer is sufficient to provide adequate spacing. By adhering to these guidelines, we can guarantee that our logos are presented in a way that is both visually appealing and easy to read.
